Changes to Location of Production for S Toggles & SW Rockers

Changes for S Toggles & SW Rockers

Type of Change:

- Engineering Part Number
- Product Appearance

I. The location of production will change for specific S Toggles and SW Rockers from the Japan factory to the Philippines factory. The factory name and place of manufacture will no longer appear on the bottom of switches, and the lot number on the side of switch cases will have a dot mark above the second digit. The box in which the switches are packaged for shipping will read "PHILIPPINES FACTORY" instead of "JAPAN FACTORY." All of these modifications will apply to standard, custom and UL/CSA approved products.

Example: S3A	Bottom of Switch	Lot Number	Shipping Box
Before Changes	Factory Location and Name on Bottom of Switch Case 	Example of Lot Number 66	
After Changes	Factory Location and Name Removed 	Example of Lot Number with Dot Mark Above Second Digit 6 [•] 6	

Notes

There are no changes to the switches' dimensions or specifications.
 The location of the Lot Number on switch case may vary depending on the part number.
 Contact the factory if more details are needed.
