

Change Notice

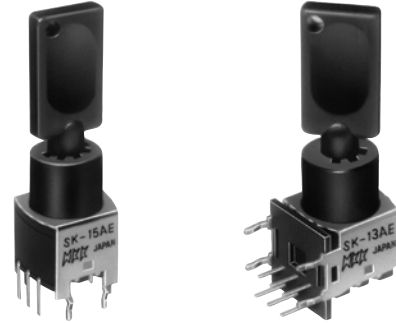

SK Series

Subminiature Antistatic Process Sealed Keylocks Terminal Plating from Tin to Gold

Type of Change:

- Engineering Part Number
 Product Appearance

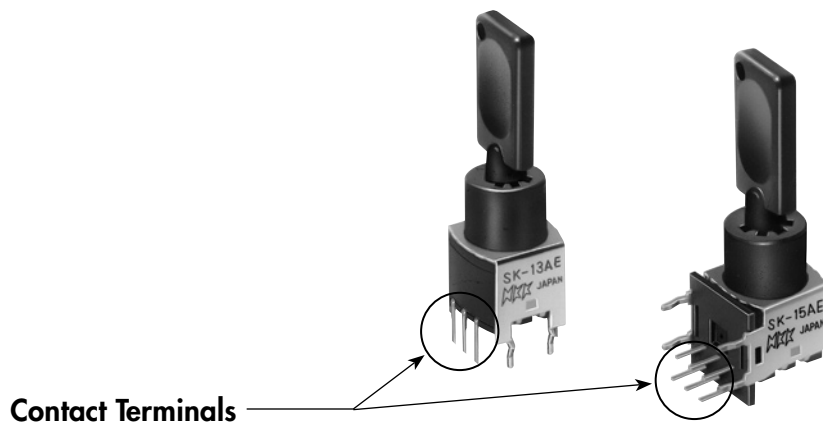

- Provides greater resistance to environmental conditions
- Inhibits tarnishing, extending storage properties

The entire SK Series with the 9mm diameter smooth bushing (E code) now has an improved surface finish to the contact terminals. This change includes all standard parts as well as related custom devices.

Terminal Surface Finish

FROM	TO
Tin (Sn-Cu) Plating over Nickel (Ni) Plating	Gold Plating (Au) over Nickel (Ni) Plating

Availability

SK Series Keylocks with new terminal plating will be effective with February 2008 production.
