- Appearance

For over 60 years, NKK has been committed to the manufacturing of industrial switches, and we value the trust our customers place in our quality and technological expertise. We are dedicated to advancing our reputation as a global company.

As a result of our globalization and simplification of procedures around the world, the name “Nihon Kaiheiki” will be known as “NKK Switches”. Accordingly, there will be modifications made to the logo on NKK Switches’ products and to packaging design.

Following are examples of the logo, company name and product packaging changes.
