

Change Notice

DS Series

Changes to DSA01 Internal Rubber Rings

Type of Change:

- Engineering Part Number
 Product Appearance

Revisions
for DSA01
Internal O-rings

There will be a material and color change to the DSA01 Tilt Switch o-rings. Since the switch has a sealed body and the two rubber rings are internal, the revisions will not be noticeable. The change will effect both standard and custom devices. The specific revisions are outlined below.

	O-rings Before Change	O-rings After Change
Material	Nitrile Butadiene Rubber	Silicone Rubber
Color	Black	Translucent White

Standard Part Number Effected by Change

DSA01

Notes

- There are no changes to any specifications or dimensions.
- Contact the factory if further details are needed.

Effective Date

Changes to DS Series tilt switch rubber rings will be effective February 2018.
